If your current hard drive has run out of disk space, exposed to disk write/read failures, or become too slow to boot Windows, you will request a hard drive replacement.

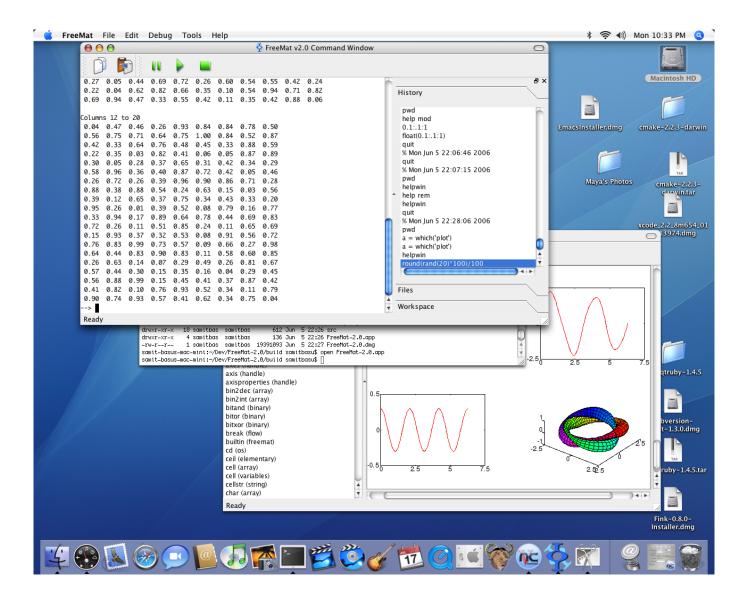

- 1. cloning software
- 2. cloning software for windows
- 3. cloning software for mac

But sometimes, you don't swap out an entire hard drive Likewise, you want to make a copy of a single partition or a few, to keep an identical backup copy for forensic purposes.

cloning software
